Draenor Warlords - Tailor Change Materials: Hexweave Fabric, Luxury Fur New 30 Slot Bag: Hexweave Bag Elekk Plushie: This battle pet comes from a tailor. He just sits there and looks at you when called up like a stuffed animal and tied to a Very Big Adventure. New Mountain: The Creeping Carpet There is epic ilvl 640 gear (Hexweave Armor) and epic created capes (Brilliant Hexweave Cloak, Agile Hexweave Cloak, Powerful Hexweave Cloak) Hexweave Essence update ilvl 640 Tailor Armor to 655 and Large Hexweave Essence Update it up to 665. As the epics have random stats, you can roll out the secondary properties with Hexweave embroidery. Silken Fields' demand for Imperial Silk is removed. Removing cooling is still TBD, although removing cooling will mean that one will be added to the Royal Satchel. Garrison Building: Tailor Emporium Level 3 This tailor alignment guide will show you the fastest and easiest way to get your tailor skill from 1 to 600. You will need thousands of fabrics if you want to level Tailoring. It will cost thousands of gold to buy fabrics, or if you farm them, it will take a long time to farm everything. Tailor goes well with Charming because you'll be able to disenchant most of the items that you craft, but a friend of Enchanter can do it for you too. Check out my Charming Level Guide if you want to level charming. Keep in mind, this clothing guide is made to align your profession as quickly as possible, so sometimes the fabrics you will make may not be the best items for your level or they won't really be profitable if you want to sell them. It's a level 86 zone, but you can easily go there at level 85. The silk fields are located southeast of Goefhill. 555 - 6009 x Recipe that you discovered from the making of Imperial Silk - 36-54 Bolt Windwool Fabric Every recipe you can discover will give you 5 points of skill, but the amount of fabrics needed to make them different. This Tailoring Level Guide will show you the fastest and easiest way to get your tailor skills from 1 to 800. Updated for Legion Patch 7.0.3 Tailor uses fabrics as basic materials, but you don't need any profession collection to collect clothes, so the tailor can be combined with any profession collection. Another popular charming choice is because you can create a bunch of fabrics, then disenchant them and use dust and essences to align your charming. You will need thousands of fabrics to align the tailor and it will cost a lot of gold to buy everything. If you are low on gold, I recommend you try this gold make guide, it can help you make loads of gold. If you are still aligning your character or you have just developed a new alt, I recommend you use an alignment guide. You can align your character to 110 in 8 days with this guide. Keep in mind, this clothing guide is made to align your profession as quickly as possible, so that sometimes the fabrics you will do may not be the best items for you. Content Table: Two Modes of Tailor Levels If your character is below level 90, visit my Tailor Level Guide for below 90. This is a guide for 90-110 level players. There are currently two tailoring level methods up to 480. One of them with Draenor Draenor materials they are very cheap. (This option is likely to be removed from the manual after everyone runs out of Draenor materials) Other options are to use new Legion recipes, but it will cost you a lot more, especially at the beginning of the extension. However, using the Legion's new recipes, you get items that are useful and can be sold at the Auction House. You can also break the armor at 110 to get obliterum Ash, which you can turn into Obliterum. So which one should you choose? Check the prices on your kingdom for them: 2400 x Sumptuous Fur 1080 x Sha'l'dorei Silk Choose the one that is cheaper. At the beginning of the expansion it will probably be cheaper to make draenor recipes for a while. Level 1-480 with Draenor recipes (cheap option) First, visit your tailoring coach in Dalaran, or one of the main cities of old Azeroth. Just walked up to the guard in town, you can ask them where the tailor coach is located. You can also find trainers in Ashran if you ask the guards. You should get the Draenor Tailoring scroll to increase your maximum tailoring skill to 700. This scroll will also teach you a few basic recipes that you will use for the Tailor level. There are three ways to get this scroll: 1 - 480 There are 3 recipes that you can use for a level of up to 580. It doesn't matter which one you choose, they all require 50 Sumptuous fur and give 10 points of skill when you craft them. Pick only one: 48 x Sumptuous Cowl - 2400 x Luxury Fur 48 x Sumptuous Leggings - 2400 x Luxury Fur 48 x Sumptuous Clothing - 2400 x Stuous Fur Leveling 1-800 with Legion Recipes Check Out My Sha'l'dorei Silk Farming Guide If You Want Farm Tissue. This part requires a level of 100. First, visit your tailor coach Tanitria in Dalaran. Just walked up to the guard in town, you can ask them where the tailor coach is located. Once you know Tailor, pick up the Sew quest It starts with Tanitria. The reward for the quest is the Legion of Tailor. Unlocking recipes Most Tailor recipes are unlocked, making quests for your profession coach Tanithria. You have to get to level 110 and finish each tailor quest before continuing this guide. There are 38 Tailor quests in total, they are pretty straight ahead, so I won't record the details of each quest. Some of the quests will lead you to dungeons, but you can finish each quest easily in 1-2 days if you start them in 110, otherwise you will have to wait because later quests have level requirements. One of the most difficult quests is the Way to Suramar City (26th quest). You'll need 1000 Ancient Mana for this quest, but the default cap is 300, so you'll have to do a bunch of Suramar quests to increase the cover to 1000. You get a 500 pound manapool 40-50 quest in the main storyline of Suramar and 500 pounds manapool after achieving a well-deserved with Nightfallen. The most important quest is the queen Grace Lum (about the 30th quest in the chain). Once you've completed this quest, you'll get two rewards: Soaked Breccers, and Soaked Silk Algae. You also unlock quests and vendors for the rest of the Imbued Silkweave set. These armor will be used to align between 740-800. Recipe series Most Legion recipes now have 3 rank. Higher-ranked recipes allow you to create an item for fewer materials. So you should only use rank 3 recipes when you can. Rank 3 recipes come from a variety of sources like suppliers, World quests, reputation, dungeon drops, and even rated battlefield wins. If you hover over the little stars in your book of spells, you can see the source of the next grade for the chosen recipe. Unlocking the World quests Most of the rank 3 Silkweave recipes comes from the world of quests. To get these quests, you must first complete the unification of the islands, reaching a friendly reputation with each faction of the Legion. You can get this quest from Archmage Khadgar. Once you have unlocked the quests, you must align your Tailor with at least 100 to unlock the profession of World quests. 1 - 481 Learn one of 4 cloak recipes from your trainer, and do it 143 times. 120 x Silkweave Cover - 1080 x Sha'l'dorei silk You can buy Sharp Spritethorn and Runic Catgut from Lalla Brightweave near the tailor trainer in Dalaran. 481 - 743 264 x Soaked silk seaweed - 2640 x Sha'l'dorey Silk, 792 x Arhanana Keep them, you'll use all of them later. Note: It is really important to reach 743 ! You won't get the benefits of multiple skill ups on the 779 unless you get to 743. Make a few Silkweave Cover until you get to 743. 743 - 782 Now you need to get a rank 2, and rank 3 recipe from one of the Silkweave Armor pieces. I recommend gloves or recipe braces because they do not require Sargueras Blood. 13 x The Silkweave Bracers - Rank 3 - 715 x Soaked Silkweave 10 x The Silkweave Gloves - Rank 3 - 550 x The Silkweave Alternative Recipes That Use Sargeras Blood: There are not many differences in materials cost between rank 2 and rank 3 for recipes below, but rank 3 recipes remain orange 20 points. You can't level up to 800 using rank 2 recipes. 10 x Soaked Silk Seaweed Cinch - Rank 3 - 60 x Soaked Silkweave, 20 Blood Sargeras 10 x Soaked Silk Seaweed Epaulets - Rank 3 - 60 x Soaked Silk Seaweed, 20 Sargeras Blood 10 x Soaked Silk Slippers - Rank 3 - 60 x Soaked Silk Seaweed, 20 Sargueras Blood You can buy Sharp Spritethorn and Runic Catgut from Lalla Brightweave near your port train in Dalaran. Rank 1 recipe locations Rank 2 recipes sold by Lalla Brightweave in Dalaran. Except Pattern: The Same Silkweave Cinch, which is sold by Strap Bucklebolt for 500 Sightless Eye in the Dalaran sewer. Here's a detailed guide on how to get Sightless Eye. can get 500 in about half an hour, or even less. Rank 3 recipe locations: 780 - 800 You'll make the same items that you made in the previous step, but every recipe you can craft will be yellow between 780-790 and green between 790-800. This means that Won't get skill points for each craft, so the number of recipes you need to work out will be different for everyone. You will probably have to craft between 30-40. Since recipes no longer give you multiple skill points of each craft, the wrist recipe is the best one to use for this part. 35 x The Silkweave Bracers - rank 3 - 1925 x The Same Silkweave Again, it's just an approximate number, you may need to do more, you may need to do less. Darkmoon Faire You should check your calendar in the game to see if Darkmoon Faire is open, the event starts at 00:01 on Sunday until the first Monday of each month. You can score 5 skill points by completing one quest (use it on 795). Click here to learn more about quests. I hope you enjoyed this guide of tailoring, congratulations on reaching 800!
